

GroundSure Planview

Why you need GroundSure Planview when you move:

Have any planning applications been turned down at the site in the past 10 years?

How well do you know the local area?

GroundSure Planview provides historic planning data covering the last 10 years, designed specifically to assist commercial property transactions. The report includes information on retail planning applications, major project applications, local infrastructure, mobile mast data, local amenities, environmentally sensitive areas and much more.

GroundSure Planview is based on a polygon search providing details of all historical planning applications within 500m of the site boundary. It can be produced for any commercial property in England and Wales and contains the following information:

- Detailed planning project descriptions and the status of applications
- Residential and commercial planning applications from the last 10 years
- Telecommunication masts and mobile transmitter data

- Local authority information including tax banding, costs and contact details
- Points of local interest including hospitals, amenities and transport
- Electricity pylons and overhead transmission lines
- Confirmation of whether the property is within or close to a radon affected area.

GroundSure Planview provides the information you need to make an informed decision about a commercial property purchase.

Geodesys is an approved GroundSure reseller and the leading provider of land and property search information in the Anglian Water region.
